be brought out during the investigation by the Coroner. I have no further

expression to make at this time."

Dr. M rrison, when advised that the jury had found that an ante-mortem statement should have been obtained, said:

# Police Asked for No Statement.

"I was not employed by the Coroner nor any other authority to obtain a statement from Mr. Latimer. It appeared evident to me that all he could say was 'A burglar shot me.'

"I was not requested either by the police to get a statement from Mr.

Said District-Attorney John S. Clarke:

The whole matter is still in the hands of the police. The inquest developed the fact that there is no substantial evidence to present to any court, except that of Mrs. Latimer, which simply brings out the burglar theory. Ail other evidence was unsubstantial. The burglary idea is al! there is in it at present."

## Parker's Tale "A Tissue of Lies."

William H. Tuthill said: "Parker, who testified that he was retained to shadow Mrs. Latimer and myself, told a tissue of lies, as was evident to everybody in the court-room. My friends and I looked for this verdict."

Police, Captain John Buchanan said: "It looks as if we were at a standstill. We had hoped that the inquest would point a way to clear up this mystery, but it seems to me that we are no nearer now to a solution of it than we were before."

Mrs. Albert C. Latimer was present at to-day's inquest. She arrived while the inquest was in progress and did not enter the court-room, remaining, as yesterday, in the Judges' private chamber. After the case went to the jury she did not await the result of the verdict, but returned home.

### Censured by the Coroner.

In instructing the jury Coroner Williams said:

"Appreciating the fact that the man was rational at times and that an effort at co-operation between the hospital authorities and the Coroners' office should have been made in order to subserve the ends of justice, I do not feel that direct blame is to be attached to any individual for the failure of this co-operation, but I cannot help saying here and now that Met at Door by Mrs. Latimer. some censure is to be placed on the physicians for their failure to aid this office in securing a statement regarding the shooting from the dying man.

. "I believe that it was possible that a statement could have been secured from the dying man and that much of the mystery that now surrounds this case would have been cleared thereby."

of the Cliffs, near the Passaic Falls, N. J., in an attempt to end her life.

Two men on the opposite shore saw her jump and both went to the rescue. One of them sprang into the river and swam to her assistance and the other sot a small boat and rowed out to aid the other rescuer.

She came to the surface, and the man in the water setzed her and managed to support her until the boat resched them. She was taken into the boat and taken ashore. An ambulance took her to st. Joseph's Hospital. She has been unconscious since her rescue.

# Coroner Believes Censure Due.

Coroner Williams, in submitting the Latimer murder mystery to the jury, said that while not disposed to lay any individual blame, he felt sure that some censure should be expressed for the failure of the hospital authorities to co-operate with the police authorities in procuring a statement from Afbert Latimer during his rational moments.

While the jury was preparing a verdict William Latimer and two of his friends searched the court-room for the witness Parker.

"I'd give my right arm to be locked in a room with that fellow," said William Latimer. "Of course, no one believes a word he says, but I'd like to Q. And what did it lead up to? Well, it leads to two witnesses whom show him what I think of him. Never was there such a dastardly attempt to attack the character of a good woman, and this fellow was moved by the sight of money alone." Q. Well, what did you hear them say? A.
